Subject: Dedication of New King City Citywide Security Camera System

The King City Police Department will host an Open House to formally dedicate completion of Phase I of the City's new citywide security camera system and the public is invited to attend. The Open House will take place on January 9, 2018 from 4:00 p.m. to 6:30 p.m. at the King City Police Station, located at 415 Bassett Street. The dedication ceremony will take place at 5:00 p.m. The event will provide an opportunity to view a demonstration of the new technology and efforts under way by the City to protect its residents and eliminate violence in the community.

Implementation of a Citywide security camera system was one of the key elements of the City's Comprehensive Plan to End Youth Violence. The City believes it will have an important immediate impact in improving public safety by detecting and resolving criminal activity, as well as providing an effective deterrent to violent acts.

Phase I of the project includes the communications infrastructure and a number of cameras at key locations throughout the City. All cameras will be linked to the Police Department. It is designed to easily expand the system by adding additional cameras in the future. The cost of the first phase was approximately \$450,000, which was funded from proceeds from multiple grants, sale of property, and sale of utility undergrounding credits from PG&E. The system was installed by Surveillance Grid, Inc., a professional firm specializing in installation of security technology systems for municipalities.

Contact City Hall at 831-386-5925 for more information.
