## Press Release

---

**Date:** October 14, 2019

**Contact:** Steven Adams, City Manager, (831) 386-5917

**Subject:** Closure of Creek Bridge Baseball Park for Field Improvements

The City has scheduled improvements to the Creekbridge Baseball Park for this winter. The City Public Works Department will level, aerate, reseed and fertilize the field so that the worn areas of the grass outfield can be restored. As a result, the ballfield will be closed beginning today through February in order to complete the work and provide time for the field to recover and take root. The other areas of the park will remain open during this period.

The project is part of an overall Sports Field Improvement Plan recently adopted by the City Council. The City's sports fields have become deteriorated over time due to deferred maintenance and overuse. The plan includes strategies to upgrade all the fields over the next two to three years.

The Adult Softball Field was renovated this past year in partnership with the Adult Softball League. Plans are being developed to upgrade the Little League Field and Soccer Park this Spring through other partnerships and/or sponsorships. Meanwhile, the City has submitted a grant application to fully renovate San Antonio Park next year if approved.
