EXHIBIT A

UNDER THE AUTHORITY OF CALIFORNIA HEALTH AND SAFETY CODE SECTIONS 101040 AND 120175, THE HEALTH OFFICER OF THE COUNTY OF MONTEREY (“HEALTH OFFICER”) ORDERS:

1. This Order supersedes the April 3, 2020 Order of the Health Officer directing all individuals to shelter in place (“Prior Shelter Order”). Modifications in this order were determined using a risk-based analysis to identify activities with lower risk of spread of COVID-19. As of the effective date and time of this Order set forth in Section 16 below, all individuals, businesses and government agencies in the County of Monterey (“County”) are required to follow the provisions of this Order.
2. The intent of this Order is to ensure that the maximum number of people shelter in their places of residence to the maximum extent feasible to slow the spread of COVID-19, and mitigate the impact of the COVID-19 pandemic on delivery of critical healthcare services to those in need. All provisions of this Order must be interpreted to effectuate this intent. Failure to comply with any of the provisions of this Order constitutes an imminent threat and menace to public health, constitutes a public nuisance, and is punishable by fine, imprisonment, or both.
3. All individuals currently living within the County are ordered to shelter at their place of residence. They may leave their residence only for Essential Activities, Essential Governmental Functions, to work for Essential Businesses, or to perform Minimum Basic Operations for non-essential businesses, all as defined in Section 13. Individuals experiencing homelessness are exempt from this Section, but are strongly urged to obtain shelter, and governmental and other entities are strongly urged to, as soon as possible, make such shelter available and provide handwashing or hand sanitation facilities to persons who continue experiencing homelessness.
4. When people need to leave their place of residence for the limited purposes allowed in this Order, they must strictly comply with Social Distancing Requirements as defined in Section 13.k, except as expressly provided in this Order, as well as all Health Officer Orders issued related to COVID-19. In addition, all Essential Services including Essential Businesses, Minimum Basic Operations, Healthcare Operations, Essential Infrastructure, Essential Government Functions and Essential Travel shall comply with any Health Officer general or industry specific requirements related to COVID-19.
5. All businesses with a facility or outdoor work areas in the County, except Essential Businesses, as defined in Section 13.f, are required to cease all activities at such facilities or work areas located within the County except Minimum Basic Operations, as defined in Section 13.g. All businesses may continue operations consisting exclusively of owners, employees, volunteers, or contractors performing activities at their own residences (i.e., working from home). All Essential Businesses are strongly

encouraged to remain open. However, Essential Businesses are directed to maximize the number of employees who work from home. Essential Businesses may only assign those employees who cannot perform their job duties from home to work outside the home. All Essential Businesses shall prepare, post, and implement a Social Distancing Protocol at each of their facilities or outdoor work areas at which they are maintaining operations, as specified in Section 13.h. Businesses that include an Essential Business component at their facilities alongside non-essential components must, to the extent feasible, scale down their operations to the Essential Business component only; provided, however, that mixed retail businesses that are otherwise allowed to operate under this Order may continue to stock and sell non-essential products.

6. All public and private gatherings of any number of people occurring outside a single household or living unit are prohibited, except for the limited purposes expressly permitted in this Order. Nothing in this Order prohibits members of a single household or living unit from engaging in Essential Travel or Essential Activities together.
7. All travel, including, but not limited to, travel on foot, bicycle, scooter, motorcycle, automobile, or public transit, except Essential Travel, as defined below in Section 13.i, is prohibited. People may use public transit only for purposes of performing Essential Activities or to travel to and from work to operate Essential Businesses, maintain Essential Governmental Functions, or to perform Minimum Basic Operations at non-essential businesses. Transit agencies and people riding on public transit must comply with Social Distancing Requirements, as defined in Section 13.k, to the greatest extent feasible. This Order allows travel into or out of the County only to perform Essential Activities, operate Essential Businesses, maintain Essential Governmental Functions, or perform Minimum Basic Operations at non-essential businesses.
8. This Order is issued based on evidence of ongoing occurrence of COVID-19 within the County and throughout neighboring counties, scientific evidence and best practices regarding the most effective approaches to slow the transmission of communicable diseases generally and COVID-19 specifically, and evidence that the age, condition, and health of a significant portion of the population of the County places that population at risk for serious health complications, including death, from COVID-19. Due to the outbreak of the COVID-19 disease in the general public, which is now a pandemic according to the World Health Organization, there is a public health emergency throughout the County. Making the problem worse, some individuals who contract the virus causing the COVID-19 disease have no symptoms or have mild symptoms, which means they may not be aware they carry the virus and are transmitting it to others. Because even people without symptoms can transmit the infection, and because evidence shows the infection is easily spread, gatherings and other interpersonal interactions can result in transmission of the virus. This public health emergency continues since the Prior Shelter Order of April 3, 2020, with increasing numbers of confirmed cases and deaths. At the same time, evidence suggests that the restrictions on mobility and social distancing requirements imposed by the Prior Shelter Order are slowing the rate of increase in community transmission and confirmed cases by limiting

interactions among people, consistent with scientific evidence of the efficacy of similar measures in other parts of the country and world. Specifically, the Prior Shelter Order has resulted in prolonged doubling times for new confirmed cases, and stable hospital admission rates for greater than 14 days. The Prior Shelter Order has also afforded hospitals and clinics time to implement measures to admit and care for a greater number of patients when the surge of patients reaches its peak. This Order balances the social, emotional and economic benefits of fewer restrictions and the risk of increased transmission among the community. Scientific evidence shows that at this stage of the emergency, it remains essential to continue to slow virus transmission as much as possible to protect the most vulnerable populations, to prevent the health care system from being overwhelmed, and to prevent deaths. Extension of the Prior Shelter Order and strengthening of its restrictions are necessary to continue to reduce the spread of the COVID-19 disease, thus preserving critical and limited healthcare capacity in the County and advancing toward a point in the public health emergency where transmission can be controlled.

9. This Order is also issued in light of the existence, as of April 28, 2020, of 206 cases of COVID-19 and 5 deaths in the County, as well as sustained increase in the number of confirmed cases in neighboring counties and an ongoing increase of suspected cases due to community transmission. This Order is necessary to continue to slow the rate of spread, and the Health Officer will re-evaluate the Order as further data become available.
10. This Order is issued in accordance with, and incorporates by reference, the March 4, 2020 Proclamation of a State of Emergency issued by Governor Gavin Newsom, the March 6, 2020, Declaration of Local Emergency by the County Administrative Officer, the March 10, 2020 Resolution of the Board of Supervisors Ratifying and Extending the Declaration of a Local Emergency, and the March 13, 2020 declaration of national emergency by the President of the United States.
11. This Order is issued in light of evidence that the Prior Health Order has been generally effective in increasing social distancing, but that at this time continued restrictions are necessary to further mitigate the rate of transmission of COVID-19, to prevent the health care system from being overwhelmed, and prevent death. This Order comes after the release of substantial guidance from the Centers for Disease Control and Prevention, the California Department of Public Health, and other public health officials throughout the United States and around the world, including an increasing number of orders imposing similar social distancing requirements and mobility restrictions to combat the spread and harms of COVID-19. The Health Officer will continue to assess the quickly evolving situation and may modify or extend this Order, issue additional Orders, or issue industry specific requirements related to COVID-19, as changing circumstances dictate. This Order is also issued in light of the Governor's statements of April 28, 2020, that the State is transitioning into a risk-based assessment of the impacts of COVID-19.
12. This Order is also issued in light of the March 19, 2020 Order of the State Public Health

Officer (“Stay Home Order”), which set baseline statewide restrictions on non-residential business activities effective until further notice, as well as the Governor’s March 19, 2020 Executive Order N-33-20 directing California residents to follow the State Stay Home Order. The State Stay Home Order was complementary to the Prior Shelter Order. This Order adopts in certain respects more stringent restrictions addressing the particular facts and circumstances in this County, which are necessary to control the public health emergency as it is evolving within the County and Central Coast Region. Without this tailored set of restrictions that reduces the number of interactions between persons, scientific evidence indicates that the public health crisis in the County will worsen to the point at which it may overwhelm available health care resources within the County and increase the death rate. Also, this Order enumerates certain restrictions on non-work- related travel not covered by the State Stay Home Order, including limiting such travel to performance of Essential Travel or Essential Activities; sets forth mandatory Social Distancing Requirements for all individuals in the County when engaged in activities outside their residences; and adds a mechanism to ensure that Essential Businesses comply with the Social Distancing Requirements. Where a conflict exists between this Order and any State Governor or State Public Health Officer Order related to the COVID-19 pandemic, the most restrictive provision controls. Consistent with California Health and Safety Code section 131080 and the Health Officer Practice Guide for Communicable Disease Control in California, except where the State Public Health Officer may issue an order expressly directed at this Order and based on a finding that a provision of this Order constitutes a menace to public health, any more restrictive measures in this Order continue to apply and control in this County.

13. Definitions and Exemptions.

- a. For the purposes of this Order, individuals may leave their residence only to perform the following “Essential Activities.” However, people at high risk of severe illness from COVID-19 and people who are sick are strongly urged to stay in their residence to the extent possible, except as necessary to seek or provide medical care or Essential Governmental Functions. Essential Activities are:

compliance with Social Distancing Requirements and with the following limitations:

1. Outdoor recreation activity at parks, beaches, and other open spaces must be in conformance with any restrictions on access and use established by the Health Officer, a government agency, or other entity that manages such area, to reduce crowding and risk of transmission of COVID-19. Such restrictions may include, but are not limited to, restricting the number of entrants, closing the area to vehicular access and parking, or closure to all public access;
 2. Use of recreational areas with high-touch equipment or that encourage gathering, including, but not limited to, playgrounds, outdoor gym equipment, picnic areas, dog parks, and barbecue areas, is prohibited outside of residences, and all such areas shall be closed to public access including by signage and, as appropriate, by physical barriers;

Such facilities may be repurposed during the emergency to provide essential services needed to address the COVID-19 pandemic; and
 4. Sports or activities that include the use of shared equipment may only be engaged in by members of the same household or living unit.

When moving into or out of the Monterey Bay Region, individuals are strongly urged to quarantine for 14 days. To quarantine, individuals should follow

the guidance of the United States Centers for Disease Control and Prevention.

- b. For the purposes of this Order, individuals may leave their residence to work for, volunteer at, or obtain services at “Healthcare Operations,” including, without limitation, hospitals, clinics, COVID-19 testing locations, dentists, pharmacies, blood banks and blood drives, pharmaceutical and biotechnology companies, other healthcare facilities, healthcare suppliers, home healthcare services providers, mental health providers, or any related and/or ancillary healthcare services. “Healthcare Operations” also includes veterinary care and all healthcare services provided to animals. This exemption for Healthcare Operations shall be construed broadly to avoid any interference with the delivery of healthcare, broadly defined. “Healthcare Operations” excludes fitness and exercise gyms and similar facilities.
- c. For the purposes of this Order, individuals may leave their residence to provide any services or perform any work necessary to the operation and maintenance of “Essential Infrastructure,” including agriculture, airports, utilities (including water, sewer, gas, and electrical), oil and gas production and refining, energy production and supply, roads and highways, public transportation, solid waste and recycling facilities (including collection, removal, disposal, and processing facilities), cemeteries, mortuaries, crematoriums, and telecommunications systems (including the provision of essential global, national, and local infrastructure for internet, computing services, business infrastructure, communications, and web- based services).
- d. For the purposes of this Order, all first responders, emergency management personnel, emergency dispatchers, court personnel, individuals engaged in first responder training, and others who need to perform essential services are categorically exempt from this Order to the extent they are performing those essential services. Further, nothing in this Order shall prohibit any individual from performing or accessing “Essential Governmental Functions,” as determined by the governmental entity performing those functions in the County. Each governmental entity shall identify and designate appropriate employees, volunteers, or contractors to continue providing and carrying out any Essential Governmental Functions, including the hiring or retention of new employees or contractors to perform such functions. UNDER THE AUTHORITY OF CALIFORNIA HEALTH AND SAFETY CODE SECTIONS 101040 AND 120175, THE HEALTH OFFICER OF THE COUNTY OF MONTEREY ("HEALTH OFFICER") ORDERS:

1. This Supplemental Order supplements, but does not replace, the April 3, 2020 Order of the County Health Officer directing all individuals to shelter in place ("Prior Shelter Order"). This Supplemental Order shall become effective at 12:00 p.m. on May 8, 2020 and will continue to be in effect until it is rescinded or amended in writing by the County Health Officer. Except as supplemented herein, the terms, conditions and directives of the April 3, 2020 Order remain in effect and are incorporated herein by reference.
2. Governor Gavin Newsom has announced that the State of California will move into the early phase of Stage 2 of the COVID-19 reopening process beginning on Friday, May 8, 2020. This Supplemental Order will allow additional lower-risk retail businesses and associated manufacturing and supply chain businesses that support these businesses to resume business with modifications, if they can meet the guidelines provided by the state, and can comply with the County Health Officer Social Distancing Requirements and all Health Officer Orders in effect. These workplaces include but are not limited to bookstores, jewelry stores, toy stores, clothing stores, shoe stores, home and furnishing stores, sporting goods stores, antique stores, music stores, florists, all of which may provide services to the public via curbside pick-up and delivery only. Members of the public may place orders online or via telephone only, and retailers are not allowed to display merchandise on sidewalks. By way of this Supplemental Order, the County Health Officer aligns the Prior Shelter Order with the State Order for Stage 2, consistent with orders and guidance issued by the Governor and the State Department of Public Health. Businesses are advised to carefully review State Orders and guidance to determine whether their business falls within the confines of the State Order for Stage II such that they can resume business. Those businesses that do not fall within those confines of the State Order for Stage 2 and do not fall into the confines of the Prior Shelter Order are prohibited from reopening and are subject to citation for violation of this Supplemental Order.
3. Copies of this Supplemental Order shall promptly be: (1) made available at the County Government Center at 168 West Alisal Street, CA 93901 and the County Health Department at 1270 Natividad Rd., Salinas CA 93906; (2) posted on the County Health Department website www.mtyhd.org; and (3) provided to any member of the public requesting a copy of this Order.
